

$$\mathcal{L} = - \sum_{i=1}^n \textcolor{red}{y_i} \log \textcolor{blue}{\hat{y}_i}$$

A diagram illustrating the loss function $\mathcal{L} = - \sum_{i=1}^n y_i \log \hat{y}_i$. A red arrow points down to the red y_i term. A blue arrow points up to the blue $\hat{y}_i$ term, which is labeled "predicted probability".
